

# LEAP's

## Efficient and Effective

### Study Habits

#### Grades 7 - 11

This updated and revised course enables students to become more efficient and effective learners by assessing learning style, and teaching strategies covering learning style, organization, time management, reading and testing. If students have previously taken LEAP Study Skills grades 5 and 6, this course will build on the foundation already established. It is not necessary to have previously taken any class to benefit from this.
